FORKLIFT RENTAL BENEFITS

NEED FLEXIBILITY

Your needs may change from month-to-month or from season-to-season. With Komatsu Forklift Rental, you can add short term rental units to meet peak demand periods, then de-hire them if & when required.

With ownership you don't have the same flexibility, you are usually locked into the equipment you have, and if additional equipment is needed, you have the hassle of trying to purchase additional units. If you purchase to meet your year-round needs, you may be paying for equipment that sits idle for weeks at a time.

FINANCIAL FREEDOM

When you allow your Komatsu Forklifts Australia to manage your material handling equipment, you can focus your energies on your business, knowing that your forklifts are in good hands and that you will be up and running when you most need to be.

When you rent a Komatsu Forklift:

- You can save money and improve your bottom line
- You have new, updated equipment when you need it
- You get superior service to keep your forklifts on the job
- You can minimise surprise expenses or unpredictable costs that affect your bottom line
- You can use Long Term Rental to allow for better control of your material handling costs
- You can conserve your capital for investing in your business

FORKLIFT RENTAL BENEFITS

LATEST TECHNOLOGY

When you hire a forklift from Komatsu you can rest assured that it not only has all the latest safety features, but also meets all relevant safety requirements & regulations for your respective state.

In addition we can offer a range of additional safety features on long term hire units to significantly reduce your total cost of hire whilst improving productivity & safety.

NATIONAL SUPPORT

Accredited technicians, state of the art diagnostic equipment and advanced facilities ensure Komatsu Rental forklifts are fully serviced and maintained for the duration of your rental period.

In addition to the uptime benefits that come with professionally maintained equipment, Komatsu Rental solutions are designed to minimise your downtime and ensure long-term reliability of the machine you are operating.

FORKLIFT RENTAL BENEFITS

LEADING PRODUCTS

The quality & reliability of hire equipment is of key importance to ensure your forklifts achieve maximum uptime & are running when you need them most. At Komatsu, all our forklifts are manufactured with 100 years of know how from construction & mining equipment.

In addition we have industry leading technologies in our forklifts that will reduce your running costs.

INDUSTRY EXPERIENCE

The Komatsu team are experts in materials handling. If your not sure what type of equipment you need, just talk to our trained professionals & we will give you options for the best & most cost effective solution to meet your needs.

No problem is to big, or to small for us & our full range of short & long term hire equipment is only a phone call away.

FORKLIFT RENTAL BENEFITS

FAST DELIVERY

Speed is our strength. We understand that forklifts are often urgently needed for short-term operations.

Our national hotline puts you in touch with trained professionals in your area ready to assist you.

Once we have your solution identified, we make sure your forklifts are on their way to you in no time.

COUNT ON KOMATSU

Komatsu has been in Australia for more than 50 years. We have become one of Australia's leading suppliers of material handling equipment by understanding the needs of our customers & the Australian market. We are here for the long haul, so you can have confidence that we will support you and your Komatsu forklifts for a long time to come.

Komatsu Forklift Australia is 100% owned by Komatsu Ltd, which manufactures construction, mining and material handling equipment in factories throughout the world. We proudly service a wide range of industries delivering innovative and technically advanced solutions for all material handling needs.
